Francisco Díaz Covarrubias

APENDICE XVI.

Nota al Presidente de la Comisión Mexicana á
S. E. el Ministro de Negocios Extranjeros del Japon,
relativa á remision de fotografias, libros, &.

Yokohama, jan. 30th-1875.

Dear Sir,

I have the honor to send to Your Excellency a collection of the photographs made by the Mission under my charge during the last transit of Venus, with the mean time of the production of each of them. They represent the part of the disc of the sun occupied by the planet.

I equally send to Your Excellency a copy of the last annual report presented to the Congress by the Department of Public Works of my country.

At the same time, I have the pleasure to recommend to Your Excellency the bearer of this letter Mr. Yamasaki and the young student Mr. Takanose, who have been sent by your orders to make some practical studies in my Observatory. They both have been constant in their assistance to the work, and have shown the greatest assiduity to obtain all the informations relating the astronomical observations which I have made in this country.

Being really obliged by the kind attentions I have received from the Government of His Imperial Majesty, I am, Sir,

Your Excellency's most obedient servant

(Firmado) F. DIAZ C.

H. E. Terashima Munenori, Minister for Foreign
Affairs of H. I. J. M.
